

BozMerix

A revolutionary nutraceutical to aid the natural systems in the horse that control inflammation and assist in orthopaedic comfort.

Hestevard BozMerix is suitable for horses:

- during periods of rehabilitation
- during intense training or competition
- that are older
- showing signs of stiffness

Hestevard BozMerix has been designed to assist with the maintenance of normal articular and joint functions and to support a horse's natural anti-oxidant system.

A POWERFUL BLEND OF 4 SCIENTIFICALLY PROVEN INGREDIENTS:

- ✓ **Boswellia Serrata** has soothing and relieving properties. It has a synergistic effect when combined with micro-encapsulated Curcumin.
- ✓ **Micro-encapsulated Curcumin** is derived from Turmeric and has well documented anti-oxidant properties to support normal orthopaedic comfort. Being micro-encapsulated improves bioavailability by a factor of 85 (compared to standard Curcumin).
- ✓ **ASU (Avocado/soybean unsaponifiable)** assists with the production of glycosaminoglycans and the maintenance of normal articular cartilage.
- ✓ **Omega powders (high in EPA and DHA)** are very important in order to maintain structural integrity in the cell membrane.
- ✓ **100% ACTIVE INGREDIENTS**
NO BULKING AGENTS OR SUGARS
- ✓ **FREE FROM NATURALLY OCCURRING PROHIBITED SUBSTANCES**
